

IN CASE OF ACCIDENT

Make a note of all relevant details:

- location (grid ref if possible)
- name, gender and age of casualty
- nature of injuries or emergency
- number of people in the party
- your mobile phone number

Dial 999 or 112
ask for 'Cumbria Police', then
'Mountain Rescue'

- **make sure** you tell the operator that you require **Cumbria Police**
- give all your prepared details of the incident
- **do NOT change your position** until contacted by the Rescue Team
- if you have to make a further 999 call, follow this procedure in full again

If you have hearing or speech difficulties, you can **contact the 999 emergency services by text.**

You will only be able to use this service if you are registered with emergency SMS first.

Register now – don't wait for an emergency!

Text 'register' to 999 then follow the instructions sent.

In an emergency contact

the emergencySMS service by texting 999

Your message should include:

'Cumbria Police' + details of incident + location

Mountain rescuers will always respond to emergencies but many calls are 'avoidable with proper preparation' and have the potential to compromise other life-threatening emergencies. Before calling out mountain rescue please ask yourself the question "**Is this really an emergency?**".

Now put this leaflet in your rucksack!

WHAT TO TAKE

Suitable clothing and footwear

- Warm, windproof and waterproof – layers work best
- Footwear with a treaded sole, which supports the ankles
- spare clothes, hat and gloves – **even in summer!**

Food and drink

- Take ample food and drink, including high energy snacks such as chocolate, nuts and dried fruits.
- Always carry water – even in cool weather it's easy to become dehydrated.

* ESSENTIAL KIT

- **Map and compass, torch and head torch. And a whistle**
- **Both whistle and torch can be used to signal for help: Six good long blasts in a minute. Stop for one minute. Repeat.**
Continue until someone reaches you and don't stop because you hear a reply. Your whistle blasts may be a direction finder.
- **Spare batteries and bulbs** for your equipment
- **A mobile phone** and GPS – don't rely on your mobile to get you out of trouble – in many areas there is no signal. Set up your GPS with the correct map and grid data.
- **Watch** – at least one member of the party should have one.
- **First aid kit** – including any essential medication.

Climbers and mountain bikers should **wear a helmet.**

In winter in the mountains, take an ice-axe and crampons, be sure you know how to use them, and pack a survival bag.

STAY SAFE

AND ENJOY THE FELLS

LAKE DISTRICT SEARCH & MOUNTAIN RESCUE ASSOCIATION

DEVELOP YOUR SKILLS

Developing your hill skills and building your experience will go a long way to keeping you safe and help you judge and anticipate potential hazards.

Map and compass

The ability to use a map and compass will enable you and your party to navigate safely on the fells

Improve your skills as a leader

Your ability to consider the equipment, experience, capabilities and enthusiasm of your party will help keep them safe and improve their enjoyment of the day.

Learn the basic principles of first aid:

Know your ABC – airway, breathing, circulation and the recovery position. **It could make the difference between life and death.**

CICERONE: FOR SKILLS, INFORMATION and GUIDES

At Cicerone, we play a positive role in supporting charities directly associated with mountain activities, and we are delighted to sponsor this information leaflet. Take a look at our range of 350 guides (in print and digital formats) for walks, treks, scrambles, winter climbs, cycling and outdoor skills.

www.cicerone.co.uk

BEFORE YOU SET OUT

Charge your phone

Many accidents occur towards the end of the day when both you and your phone are low on energy. Register your phone with www.emergencysms.org.uk

Plan your route carefully

Consider the time of year, terrain and the nature of the trip and choose your route accordingly. Remember: mountains are major undertakings – in the winter months, it goes dark early!

Check the weather forecast and conditions via Weatherline or MWIS

0844 846 2444 OR mwis.org.uk
<http://www.metoffice.gov.uk/outdoor/mountainsafety/index.html>

Why not add them to your 'Favourites' and Bookmarks.

Leave details of your planned route

Include start and finish points, estimated time of return and contact details – and leave your note in a reliable place in case of emergency.

Eat well before you start out and snack through the day.

Keeping your energy levels at their highest will ensure you get the most out of your day.

ON THE FELLS

Keep an eye on the weather

Be prepared to turn back if conditions turn against you, even if this upsets a long planned adventure.

Keep the party together

Allow the slowest member of the party to determine the pace, and take special care of the youngest, weakest and least knowledgeable in dangerous places.

Watch for signs of hypothermia

Disorientation, shivering, tiredness, pale complexion and loss of circulation in hands or toes. Children and older people are especially susceptible.

If you go out alone

Be aware of the additional risk.

Let people know your route and when you expect to finish and then stick to it as far as you can. Let others know if your plans change.

DANGERS YOU CAN AVOID

- Precipices and unstable boulders.
- Ice or steep snow slopes, snow cornices on ridges or gully tops.
- Very steep grass slopes, especially if frozen or wet.
- Gullies, gorges and stream beds, and streams in spate.
- Exceeding your experience and abilities and loss of concentration, especially towards the end of a day.

DANGERS YOU NEED TO MONITOR

- Weather changes – mist, gale, rain and snow may be sudden and more extreme than forecast.
- Ice on path (know how to use an ice-axe and crampons).
- Excessive cold, heat, or exhaustion (know the signs, rest and keep warm).
- Passage of time – allow extra time in winter or night time.
- Don't panic. If you've called for help, stay safe and stay put!

LAKE DISTRICT MOUNTAIN RESCUE

Our teams are highly trained unpaid volunteers, available 24 hours a day, 365 days a year. Whatever the weather.

- Cockerthorpe • Conistone • COMRU
- Duddon & Furness • Kendal • Keswick
- Kirkby Stephen • Langdale Ambleside
- Patterdale • Penrith • Wasdale
- Lake District Mountain Rescue Search Dogs

Mountain rescue in the UK is free of charge to the casualty but we rely on your support and generosity to maintain this valuable community service. Without you, we simply could not function.

To make a donation, visit our website for details.

Thank you!
